

HAWTHORNE HAPPENINGS

Rotary May Day Parade

Hawthorne Seniors Care Community has been participating in the May Day Parade for over twenty years! Through those years, Hawthorne has changed and grown, but the May Day parade has remained an exciting annual spring rite of passage. Come March, residents start discussing ideas and rolling up their sleeves.

We rely heavily on home made decorations; this ensures residents/tenants fully enjoy being involved in the whole experience. The Port Coquitlam May Day Parade is our parade; it touches nearly everyone in Hawthorne Seniors Care Community. For many years now the parade finishes at the end of Hawthorne Avenue at Tyner. This means nearly all the residents/tenants watch the parade and cheer us home and this year was no exception with an excellent turnout of participants and spectators. This year we were able to showcase our Duet Bikes.

Many thanks to the Rotary Club of Port Coquitlam Centennial and the City of Port Coquitlam for making this year's parade a success.

National Volunteer Week!

Hawthorne Seniors Care Community celebrated our annual Volunteer Celebration event Thursday, April 27. Many volunteers came out to enjoy the festivities. The Volunteers were treated to a buffet dinner with a variety of pizzas, salads and desserts. Acknowledgements followed dinner and each volunteer received a Hawthorne water bottle filled with goodies. Hawthorne is very lucky to have so many amazing volunteers; we truly appreciate each and every one of you. **THANK YOU VOLUNTEERS!!!**

The Recreation Therapy staff lived up to their reputation and put on another great show by showcasing their singing talents.

Happy Father's Day

A Dad is a person
who is loving and kind,
And often he knows
what you have on your mind.
He's someone who listens,
suggests, and defends.

A dad can be one
of your very best friends!
He's proud of your triumphs,
but when things go wrong,
A dad can be patient
and helpful and strong
In all that you do,
a dad's love plays a part.
There's always a place for him
deep in your heart.

And each year that passes,
you're even more glad,
More grateful and proud
just to call him your dad!

Thank you, Dad...
for listening and caring,
for giving and sharing,
but, especially, for just being you!
Happy Father's Day

Quintilis?

Have you heard of the month Quintilis? In the Georgian calendar, July is the seventh month. However, in the Roman calendar it is actually the fifth month, and was called Quintilis. In 46 B.C., Caesar gave the months 31 days. The Senate then named the month Julius, in honor of Caesar.

Happy Canada Day, July 1st

A national holiday in Canada and formerly known as Dominion Day, Canada Day is observed on July 1st (or on the following day when it falls on Sunday). It is the official date when we celebrate our unity as one country.

Canada Day commemorates the confederation of Upper and Lower Canada, plus some of the Maritime Provinces, into the Dominion of Canada. The event took place on this date in 1867 after a vote by the British House of Commons. Celebration activities include fireworks, dances, contests, and a variety of cultural and educational events.

The Summer Solstice

Each year, the timing of the solstice depends on when the Sun reaches its farthest point north of the equator. This occurs annually on June 20 or June 21 in North America, depending on your time zone. The word *solstice* is from the Latin *solstitium*, from *sol* (sun) and *stitium* (to stop), reflecting the fact that the Sun appears to stop at this time (and again at the winter solstice).

Question: Why isn't the summer solstice, the longest day of the year, also the hottest day of the year?

Answer: Earth's atmosphere, land, and oceans absorb part of the incoming energy from the Sun and store it, releasing it back as heat at various rates. Water is slower to heat (or cool) than air or land. At the summer solstice, the Northern Hemisphere receives the most energy (highest intensity) from the Sun due to the angle of sunlight and day length. However, the land and oceans are still relatively cool, due to spring's temperatures, so the maximum heating effect on air temperature is not felt just yet. Eventually, the land and, especially, oceans will release stored heat from the summer solstice back into the atmosphere. This usually results in the year's hottest temperatures appearing in late July, August, or later, depending on latitude and other factors. This effect is called seasonal temperature lag.

Summer Career Placement Students

For the thirteenth year in a row, Hawthorne will be receiving funding from Human Resources Development Canada for seven summer students. The students will work approximately 37.5 hours per week for 16 weeks starting in May 2017. Four of the students will focus their time on enhancing and beautifying the gardens and green space of Hawthorne for residents, families, staff, volunteers and visitors. The other three will be working in administration.

A big **THANK YOU** to Rhamona who will be helping the students who are new to gardening. Feel free to check out the garden blog he provides for the students and staff: http://thegardenatmomshouse.blogspot.ca/p/blog-page_15.html
